

City of Altura Approved Vendor/Contractor List for Water Softener Optimization and Replacement

Approved optimizers have completed training from Bolton & Menk and the Minnesota Water Quality Association to ensure they can optimize (adjust settings for lowest salt use) water softeners or replace eligible water softeners to help meet the city’s chloride reduction goals. Choose one to call to check your water softener and/or provide an estimate to replace your water softener.

Company	Phone Number	Water Softeners Serviced
Culligan Water of Winona	(507) 452-3600	Culligan +all makes and models

If you are a dealer or plumber interested in being included on the list, contact Carolyn at Bolton & Menk, 612-220-4999 to find out more about training and requirements for being listed.

This project is made possible through funding from the Clean Water Land & Legacy Amendment administered by the Minnesota Pollution Control Agency.
